

## "The Diary of a Young Girl PDF Summary"

Anne Frank is one of those historical characters that have become a fictional ideal of dreams and hope.

She was a real girl living during the Second World War, but her spirit continues living even today.

The world got to know Anne through her diary, who is now read as more of a fictional book than an actual diary.

Maybe that is even better since it is truly hard to think that you are reading the true story of a girl who lost her life too early.

Anne got her diary as a present for her thirteenth birthday.

She was truly excited about the present because she has always wanted a place where she could store all of her thoughts and secrets safely.

Anne was a girl with an abundant social life, and yet, she feels like everyone around her fails to grasp her personality.

So, at the beginning of the diary, Anne writes about everything you would expect a teenager to write about: school, friends, boys, et cetera.

However, she cannot even imagine the turn that her life takes just on the next corner.

Anne is a Jew, and she and her family have all the right to be afraid of living in German-occupied Holland.

So, when Anne's sister is called for an appearance in front of the authorities, they are confident that she is about to be sent to a concentration camp, so they go into hiding.

Their hiding place is her father's office building. They live behind a swinging bookcase for two years.

However, they are not the only ones hiding there.

The Van Daan family is also living with them. They have a son, Peter, for whom Anne soon starts having feelings about.

But, in the end, they both realize that despite their passions, they actually need each other more as a support to one another in those hard times.

Anne spends her time listening to the radio or reading books. Her dream is to become a writer, and when she hears that the war is nearing the end, she starts to edit her

diary

passionately, thinking that the world will be looking for books like that.

She was right, it seems, but sadly she did not live to see the day when that happens.

As her vigorous edits continue, she grows more sensitive to the sufferings that are flooding the world. Her own suffering and sense of loneliness increase as well.

She has never felt more isolated and misunderstood in her life.

Somewhere among these complicated feelings that arise in Anne's heart, she ends her diary. We do not know what happens next when it comes to her thoughts and emotions.

What we know about is the historical information that two days after her last entry in the diary, they find her family in the Secret Annex.

Things soon get worse. We can just imagine how Anne and her family must have felt.

They are all taken to different concentration camps, where they lose their lives.

The

only one that survives the war is her father Otto Frank, and this piece of writing that

has become one of the most read books of all time.

If she were alive, Anne would have probably been happy to see the world acknowledging

her passion. Sadly, she did not see her dream turning into reality.

But still, there are many lessons that we can learn from the character of this young girl.
